

Aluminum Weather-Jacs are considered “Articles” as defined by OSHA’s Hazard Communications Standard and is therefore exempt from the data sheet requirements of these regulations.

An article is defined below:

Definition: Article means a manufactured item:

1. Which is formed to a specific shape or design during manufacture;
2. Which has an end use function(s) dependent in whole or in part upon its shape or design during end use;
3. And which does not release or otherwise result in exposure to hazardous chemical under normal conditions of use
